

MC Series

Product Description

SALIRONE innovates not only the revolution & green composite material, but also brings durability and characteristics together with a variety of colors & texture, that creates a even better elegant fashion world.

Product Features

- Antiallergic
- Anti-bacterial & Mould proof
- Baby safe
- Green protective and environmental friendly
- Water proof and easy clean

Color and texture

Custom colors and textures are available upon request.

Typical Applications

Mattress pad...

Specification

Width: 1370mm

Put-up: 50m R.O.T.

Weight: Approx. 410-450 per sq. meters

Total Thickness: 0.95-1.05mm

Substrate Material Type: Blended fabric

Substrate Material Thickness: 0.9mm

CHARACTERISTICS	VALUE
Tensile Force	
longitudinal	≥120N
Transverse	≥80N
Tensile Elongation	
longitudinal	≥80%
Transverse	≥160%
Tear Force	
longitudinal	≥15N
Transverse	≥15N
RoHS 2.0	Comply
REACH 175 Item	Comply

* The above data is based on substrate material: 0.9mm thickness.

* * The above information is only for reference and not applied as specification or warranty.
